

# Profile: El Salvador

---

Exports	%
Knit T-shirt	14.24
coffee	5.71
Raw sugar	3.66
Plastic lips	3.03
Toilet paper	2.1

This is a profile of El Salvador. It is one of rich country about culture in the region of Central America. The GDP of El Salvador is approximately 24.26 billion dollars per year.

# Regional Economies

Country	GDP	Main Exports
Costa Rica	49.52 billion	Integrated circuits, machine parts, bananas
El Salvador	24.26 billion	Knit T-shirt, coffee, raw sugar
Honduras	18.55 billion	Shirts, coffee, bananas
Nicaragua	11.26 million	Frozen bovine meat, coffee, gold

The regional economy is agriculture. The region is dominated by Costa Rica because it is the country that most export items and it has better economy. However, the other countries in the region are developing also. El Salvador is behind the other countries in exports and

GDP but they are growing very fast and maybe in a few years will be a country with strong economy.
